Weather Summary

No significant Fire Weather Impacts are expected through early next week.

Showers and thunderstorms are expected across much of the Great Basin today with flash flooding possible over southern Utah and the AZ strip. Thunderstorms become more limited to the southern half of the region for Sunday and Monday as the northern low exists the region.

A low forming off the CA coast will track northward through the Great Basin on Tuesday and Wednesday for a return of showers and thunderstorms across the north.

Dry air returns to the region for the weekend.
